threads (asynchronously computing a solution to some problem). I get a "thread has been detached from a threadpool thread, this is likely an indicator of a bug in the application" error when I spawn enough worker threads and start to wait on the threads. Here's my code: `for (int i = 0; i < threadMethod); }`
`threadpool_thread.Join();` The 'threadMethod' looks like this: `void threadMethod(object obj) {`
